龔昇機械有限公司

GONG SHENG MACHINERY CO., LTD.

公・司・簡・介【Company Introductionp】

誠信、專業、品質、服務.....龔昇機械有限公司

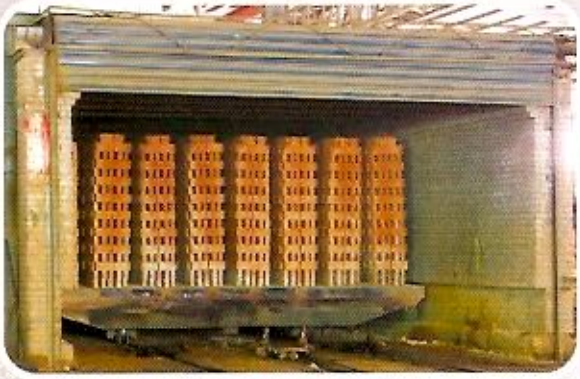
*Integrity, professionalism, quality, services.....**Gong Sheng Machinery, Co., Ltd.***

龔昇機械有限公司，創立於1980年，專門設計製造自動化磚窯廠生產機械設備，開發研究高效率、高品質之整廠生產專業技術。始終秉持著【誠信・專業・品質・服務】的信念，目前以是磚窯廠生產機械設備製業中，最具前景與發展性的指標公司。

從專業諮詢、研發設計、設備製造、安裝試車，運轉保固，每個流程皆必須通過嚴格的品質考驗。其認眞、專業、親切、負責乃是我們一貫的原則與態度，以求品質之完善，期使能讓每位客戶皆能以最低成本生產出「最優良的產品」及「最專業的服務」公司。

Gong Sheng Machinery Co., Ltd., founded in 1980, specializes in designing and manufacturing automated machineries and equipment for brick factory production, as well as developing high-efficiency and high-quality plant-based production technology. We have long held a lofty concept of integrity, professionalism, quality and services which has propelled us to come out as an indicative company with the brightest prospects and rapid growth in the industry of brick manufacturing machineries and equipment.

Starting from professional consulting, R&D and design, equipment manufacturing, installation and testing, to operation warranty, we have put each process under the most stringent test of quality. We carry out all processes with consistent principles and serious, professional, cordial, and responsible attitudes, with a purpose to achieve the highest quality in providing our customers with facilities that guarantee them the delivery of "products of best quality" and "services of excellent professionalism" at the lowest possible cost.



LS系列全自動壘坯機(碼坯機)

【LS series Fully automatic stacker】

自動夾坯機採用油壓、空壓、馬達變頻爲主要動力，傳動方式速度快、定位準確。使用保養簡單，電控系統使用PLC可程式控制器+人機介面操作簡單可做遠端控制。

Operating on powers delivered by hydraulic, air pressure or frequency-converting motors, the automatic arm picks up green bricks at high speed with high precision. It is easily maintainable with operation controlled via PLC programmable controller and a user friendly man-machine interface that allows remote control.

功能規格表 Functional specification

型號 Model number	產量 Output	馬力 Horsepower	窯寬 Kiln width	備註 Remark
LS-100	17500/H	30HP		2次堆疊 2nd stacking
LS-240	18000/H	30HP	2500M/M	
LS-300	19500/H	41HP	3050M/M	
LS-360	24000/H	50HP	3650M/M	
LS-420	28000/H	55HP	4100M/M	
LS-480	30000/H	60HP	4850M/M	
LS-600	33600/H	70HP	6050M/M	

自動切磚坯機【Automatic green brick cutter】

自動切磚機採用油壓式切磚，可以長時間快速運作不會產生老化，切磚採半切式切出成品外表永遠美觀、整齊，切磚鋼線不容易損壞，更換鋼絲快速。

The automatic green brick cutter operates on hydraulic pressure at high speed with no deterioration for a long period of time. The cutter operates on the half-cutting method which preserves clean shape of the output. The steel wire used for cutting is highly durable and replacement is very easy.

功能規格表 Functional specification

型號 Model number	切坯量 Cutting capacity	馬力 Horsepower	備註 Remark
LS-25	21000/H	10HP	
LS-30	25200/H	15HP	
LS-40	33600/H	17 1/2HP	
LS-50	42000/H	20HP	

自動轉台母車【Automatic kiln car】

自動轉台母採油壓推進出，馬達變頻左右走動，PLC可程式控制，可做複雜動作，操作簡單故障少。

The automatic kiln car operates on hydraulic pressure for moving in and out, assisted by frequency-converting motor to shift horizontally. A programmable PLC allows it to handle complex movements at simple instructions, with low risks of malfunctioning.

油壓推送機【Hydraulic push machine】

油壓推送機全部以油壓爲動力，出力穩定速度調整範圍大，馬力小可出大柱力保養容易。

The hydraulic push machine operates fully on hydraulic pressures and delivers a steady output of pushing force with wide adjustable range. A small input of horsepower is able to generate an output of big torque and it is highly maintainable.

半自動紅磚堆疊捆包機
【Semi-automatic brick stacking and packing machine】

本機採人工堆疊，自動捆包，機械結構簡單操作容易，故障低捆包速度快週邊配合條件容易，產品整齊美觀。

This machine operates semi-automatically manual stacking and automatic packing. Simple structure allows easy operation at low malfunctioning rate. The high operation speed easily accommodates to conditions of surrounding environment and the output packages are in excellent shape and order.

功能規格表 Functional specification

型號 Model number	捆包速度 Packing rate	馬力 Horsepower	操作人員 No. of operators	疊磚人員 No. of stacking personnel	備註 Remark	
GS-100	12s/次	30HP	1~ 人	7~12人	使用PET帶 Using PET tape	捆包速度依疊磚人數會變動。(最快12s/次) The packing rate varies according to number of stacking personnel (up to 12s/round)
GS-110	12s/次	60HP	1~ 人	7~12人	使用PET帶 Using PET tape	

全自動紅磚堆疊捆包機

【Fully automatic brick stacking and packing machine】

全自動紅磚堆疊捆包機，是本公司經十年時間開發完成、不須棧板會自動抓取自動堆疊，預留堆高機叉孔，用PET帶捆包可提高生產更順暢，降低生產成本和節省人工，本機採用專利夾具將燒成紅磚抓取，搬運到堆疊台自動堆疊、捆包。

The fully automatic brick stacking and packing machine is the result of our 10 years of research and development. The machine requires no pallet to operate on. It automatically picks up red bricks and stacks them with spaces left for the forking operation of a forklift truck. The use of PET tape for packing greatly smoothes the operation and lowers the cost and manpower. The machine has a patented arm facility for grabbing the fired bricks and moving to a stage for automatic stacking and packing operation.

功能規格表 Functional specification

型號 Model number	產量 Rate of brick stacking	馬力 Horsepower	操作人員 No. of operators	備註 Remark
GS-180	18000/H	185HP	3~4人	使用PET帶 Using PET tape
